Nice People making ***Nice Liners and Covers***

For 20 YEARS *and counting!*

What sets us apart? It comes down to two simple things: ***Nice People and Nice Liners & Covers****—and that's exactly what we deliver. When crafting our tagline, we wanted something that truly reflects who we are. This phrase perfectly sums up what we do and what makes us different.*

Let's start with the "Nice People" part. This isn't just about friendly smiles—it means we genuinely care about our customers and treat every interaction with respect and integrity. At Kayden Manufacturing, there's no such thing as "that's against our policy." Every issue is evaluated individually because every customer matters. As a small company, we take pride in offering personalized service, ensuring that every request gets the attention it deserves.

Now, let's talk about "Nice Liners." Some think all inground pool liners are the same, with the only difference being the patterns. Not true. Our liners are engineered for superior fit, durability, and aesthetics. From flatter seams that create a smoother finish to precisely contoured corners that prevent wrinkles and wear, every detail is designed for long-lasting beauty and performance.

Want to see what makes our liners truly special?
Check out page 7 for a deeper dive into the craftsmanship that sets us apart!

Jeff Kayden, *President*

We'll Help You Choose Your **Perfect Fit**

Below is a legend guide with all of our premium liner selection attributes, that will help in making your selection. We strongly recommend referencing actual samples from your local dealer, as pattern coloration may vary.

The **Kayden Difference**

27mil Wall—That's Our Standard

On our standard liner, the wall is made of thick vinyl. This thicker wall allows the liner to stretch into place more uniformly, which increases the lifespan of the liner. Here's why:

Vinyl has a topcoat that protects both the ink and the vinyl. When the topcoat is stretched too much, it can form microscopic cracks, leaving the liner especially susceptible to sun damage. A thicker wall significantly reduces stretching above the waterline—where it matters most.

Super-Flat Seams

Our proprietary manufacturing process allows us to create the flattest seams in the industry. Our flat seams are stronger and better looking than the competition's.

Bulge-Free Corners

Have you ever seen a liner that is bulging out at the pool corners? It is pretty common actually. It is unsightly and often contributes to the failure of a liner over time. Fortunately, we have a top-secret way to nearly eliminate this phenomenon.

25 Year Warranty

Our liners are backed by a 25-year, 2-year full, prorated warranty—the best in the industry. In fact, we are so confident in the quality of our liners, we offer 3 additional levels of extended warranty. The warranties cover the liner, chemicals, water, and labor. Ask your dealer for details.

Additional Products

Deco-Trim™ Package

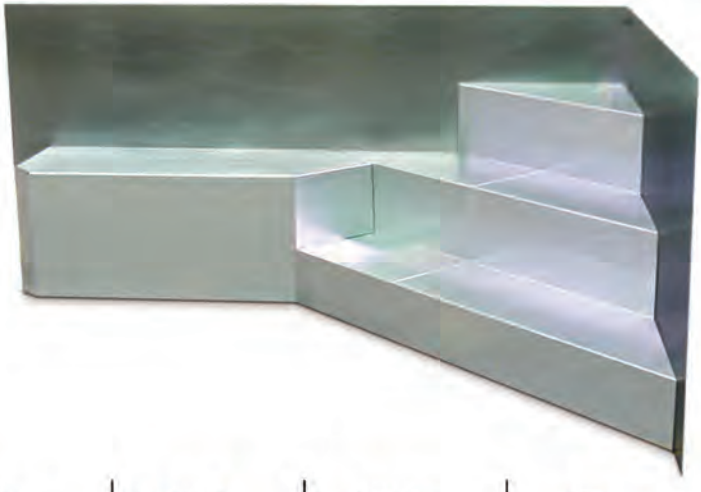

Complete your pool renovation with Kayden Manufacturing's color-matched Deco-Trim™ system. This package allows your skimmers, returns, light rings, and main drains to coordinate seamlessly with your liner pattern, creating a more refined and cohesive finish.

Replace standard white fittings with components designed to complement your pool's overall design—because the details matter.

- Better
- Longer-Lasting
- More Stylish Finishes
- Available in Black, Dark Blue, Light Blue, Gray and Tan

ZipStep™

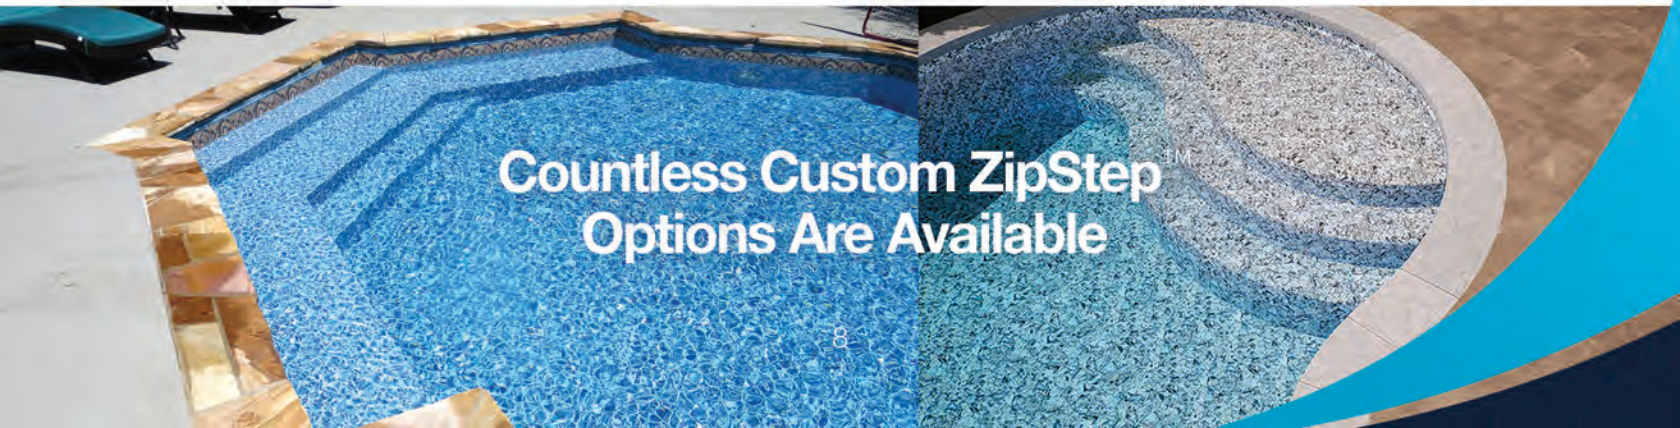

Our exclusive retrofit corner step system will instantly create a social nook in your existing pool. Designed for rectangular pools, this liner-over-steel step comes with or without side benches. If you don't have a rectangular pool, or you're looking for something a little more unique, there are countless customization options available to suit your pool shape and personal style.

ZipStep™ Benefits:

- Easy installation
- Many configuration options
- Completely customizable

Robust & Smart **Safety Covers**

Kayden safety covers are engineered to deliver serious protection, long-term durability, and a clean, custom fit—so your pool stays safer, cleaner, and easier to open season after season.

Every cover is built using tightly woven, UV-stabilized materials designed to withstand harsh weather, heavy loads, and year-round exposure. From snow and debris to active pets and kids, our covers are made to perform when it matters most.

For strength you can trust, our covers feature double-webbed construction and are sewn with 138-weight coated thread that runs the full length and width of the cover. This reinforced design delivers exceptional load distribution and long-term structural integrity.

Heavy-gauge stainless steel springs and durable anchors keep the cover secure while allowing for smooth installation, removal, and precise adjustment. Each cover is custom-made to fit your pool's exact shape, including steps, curves, and unique features—resulting in a clean, tight fit with no sagging or stress points.

The result is a safety cover that doesn't just look good—it works hard to protect your family, protect your pool, and deliver peace of mind.

Additional Products

Kaydrone™

A great-fitting liner starts with accurate measurements. Developed by Kayden and exclusive to Kayden dealers, the Kaydrone™ measuring system uses advanced technology to help capture detailed pool dimensions. Combined with expert installation and quality materials, it's one more way a great liner fit can be achieved.

The Pool Bladder™

For a fee, your dealer may offer the Pool Bladder™, an optional system that temporarily stores your pool water during a liner replacement. This can reduce water waste, minimize the need for chemical rebalancing and, in many cases, allow for same-day swimming.

Ask your dealer for availability.

Extended Warranty

With three levels of protection, you can rest assured your quality Kayden liner is going to last. Our Extended Warranties offer extended 100% liner replacement coverage AND credit for water, chemicals, and installation labor.

Silver: 2 years & $750 allowance
Gold: 3 years & $1500 allowance
Platinum: 5 years & $2250 allowance
